Between 2014 to 2018, I have been working as a web & software developer at IT firms. Although I am working as a backend developer I also have good experience of frontend development using Bootstrap, JavaScript, jQuery HTML5, CSS3 feature. Customize & development wordpress, theme & plugins and some others tools. I have developed and maintained complex Web and RESTful applications using PHP frameworks (Laravel, Codeigniter) and row PHP.

I always love working with a technically strong team where I can solve complex problems with a good balance of freedom and responsibility. Able to work under pressure & complete before deadline.
